EXTRAORDINARY OBJECTS

Next Generation brand
of furniture and accessories
launched in 2016
by Stefano Giovannoni

Back to the origins of design here is Qeeboo's philosophy, a brand made of objects for daily use, expressly not bourgeois but suitable for all.

Once created, they are entrusted to our interpretation in order to acquire a **new life**.

Qeeboo resumes and reinterprets in a fantastic way the **icons of our imagination** and gives them an unexpected original image full of **emotion**, introducing a collection of smart, ironic and surprising objects.

Extraordinary objects, created in collaboration with the most eclectic international designers, under the careful direction of Stefano Giovannoni, integrating different styles and characters in a **playful-narrative approach**.

A magical mix of technologies and industrial techniques, along with aesthetics and invention that offer not only poetic, but funny and **hybrid objects** such as Mexico and Killer, that can be used in a personal way as a seat/table/lamp or vase/planter/ champagne cooler, **allowing everyone to interpret and use them freely**.
